

GANs - APPLICATIONS

Paired image-to-image translation

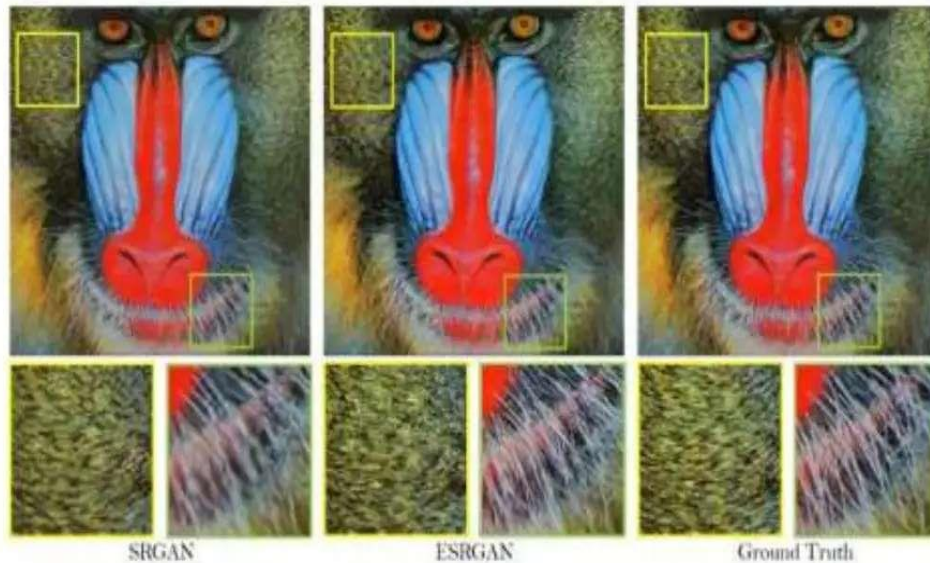

pix2pix

GANs - APPLICATIONS

Super Resolution

upsampling a low-resolution image into a higher resolution

GANs - APPLICATIONS

Text-to-Image Generation (text2image)

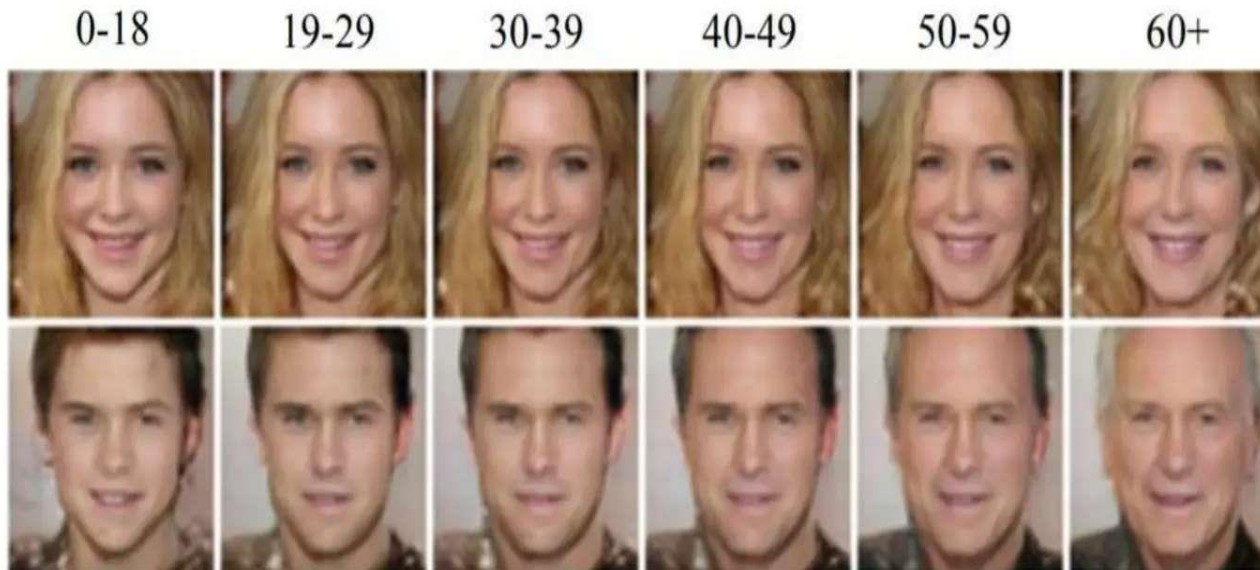

Generating Synthetic Images from textual description

GANs - APPLICATIONS

Facial rejuvenation and aging

(and other facial operations such as adding a beard, changing facial expression, etc.)

GANs - APPLICATIONS

Generate faces of people that don't exist
