UNIT I – PROJECTION OF LINES

Faculty i/c: C.SENTHILKUMAR, ASP/MECH,

Lines

Problem ① A line CD 30mm long is parallel to both the planes. The line is 40mm above HP and 25mm in front of VP. Draw its projections.

Ex:- A line AB 50mm long is parallel to both the planes. The line is 40mm in front of VP and 25mm above HP. Draw its projections.

② A line RS 60mm long lies in HP and 45mm in front of VP. Draw its projections.

③ A line PQ 55mm long is lying in VP and 45mm above HP. Draw its projections.

UNIT I – PROJECTION OF LINES

Faculty i/c: C.SENTHILKUMAR, ASP/MECH,

- ④ A line AB 55mm long is lying on both Hp and VP draw its projections.

- ⑤ A line CD 25mm long is parallel to VP and perpendicular to HP. Point C is 45 mm above HP and 15mm in front of VP. Draw its projections.

- ⑥ A line CD 30mm long is \perp to VP and \parallel to HP. It ends C is 5mm in front of VP and the line is 10mm above HP. Draw the projections of the line.

UNIT I- PROJECTION OF LINES

Faculty i/c: C.SENTHILKUMAR, ASP/MECH,

A line CD measuring 80mm is inclined at an angle of 30° to HP and 45° to VP.
The point C is 20mm above HP and 30mm in front of VP. Draw the projections of the straight line.

Locus of d'

Given:

$$CD = 80 \text{ mm}$$

$$\theta = 30^\circ$$

$$\phi = 45^\circ$$

$$c'd' =$$

$$cd =$$

Locus of d

UNIT I – PROJECTION OF LINES

Faculty i/c: C.SENTHILKUMAR, ASP/MECH,

A line AB 100mm long. The top view of a line is 65mm long and is inclined at 30° to the reference line. One end is 20mm above HP and 10mm in front of VP. The other end is 60mm above HP and is in front of VP. Draw the projections and find the true length of the line and its true inclination to HP and VP.

Engineering Drawing –

UNIT I – PROJECTION OF LINES

Faculty i/c: C.SENTHILKUMAR, ASP/MECH,

Assignment The distance between the projectors of two points A and B is 70 mm. A is 10 mm above HP and 15 mm IF VP. B is 50 mm above HP and 40 mm IF VP. Find the shortest distance between A and B by rotating line method. Add the inclination of AB with VP and HP.

Shortest Distance between A and B = 85 mm

$$\theta = 28^\circ$$

$$\phi = 17^\circ$$

UNIT I – PROJECTION OF LINES

Faculty i/c: C.SENTHILKUMAR, ASP/MECH,

Q. A straight line AB measuring 80mm long has the end A in the HP and 25mm in front of the VP. Its mid point M is 25mm above the HP and 40mm in front of the VP. Draw the projections of the line and determine its inclination with the HP and VP.
